insurance

# Thank You

**We appreciate you taking the time to find out how our **ag insurance services** can help you manage risk for your operation.**

As employee-owners of Bank Midwest Insurance, we understand firsthand what you need and want from your coverage and from the people who provide it.

Helping farmers succeed is core to our mission and drives us to deliver affordable, quality risk protection that's aligned with your priorities and delivered by local, experienced ag specialists.

The Midwest is home to us, and since 1933, we've been proud to serve the area where we live and work with quality coverage and lasting relationships.

The next pages will show you what we can do to help you plan wisely, live well, and realize your dreams.

**Thank you for the opportunity.**

## Comprehensive, Customizable Coverages

### Liability Insurance

From employee, tenant and farm management operations to fire and non-farming activity, our liability options allow you to create a protection plan that accommodates your specific needs.

### Farm Home and Buildings

Being able to not only protect but replace your home if disaster strikes is critical to your peace of mind. We offer full replacement cost options, and we'll also help you secure coverage for outbuildings that helps you generate income and protect equipment. Fencing, storage tanks, and landscaping protection can be customized for your operation.

### Vehicles

On a daily basis, vehicles are some of your most important tools, helping you access where you need to be with what you need to get the job done. Look to us for affordable choices and, if needed, fast claim service.

### Household and Personal Property

This scope of protection allows you to feel secure that key items (such as boats or firearms) and specific occurrences (such as theft or damage to the property of others) are identified and covered.

### Farm Equipment and Machinery

When your equipment doesn't work, neither can you. That's why we have replacement, repair and reimbursement options. So, whether you're renting, leasing, owning, or borrowing your equipment, we can help.

### Crop Insurance and Livestock Coverage

Whether you want specific protection through a crop hail policy or broader coverage with multiple-peril crop insurance, we offer the three most important things you need: quality coverage options, customized protection, and local service.

Our livestock options mitigate risk in case of accidents in transit, and you can also insure high-worth individual animals separately as well insuring by herd size.

### Accident, Dental, Disability, and Life

Life is filled with the unexpected, and although we can't prevent things from happening, we can help prepare for and protect against their impact. You are the CEO of your farm, and these coverages can help your operation combine to thrive even if you're unable to be involved.

## Specialized Services

### Add-On Lines

Depending on your situation, we can enhance your protection with specialized risk management tools, including commercial vehicle coverage, crime protection, workers' compensation, and commercial umbrella policies.

### Management Liability

Protecting the people who serve you is critical for acquiring and retaining a quality team. We offer a complete menu of protection options at affordable rates.

### Employee Benefits

Being able to attract the best qualified prospects to your team is often a matter of benefits. We can create a benefits program that enhances employee quality of life for them and employment retention for you.

### Cyber Liability

One of the fastest growing, constantly changing, and most potentially devastating threats to businesses today is cyber crime. By keeping abreast of current trends and helping control risk with proactive support, our coverage can be an important part of your cyber protection portfolio.
